## About Us and Location Map

**Brisbane Multicultural Arts Centre Inc.**  
**Cultural Diversity Through the Arts**

**BEMAC Management Committee**

BEMAC advocates and works to establish cultural diversity through the arts, and offers arts and community cultural development services to culturally diverse artists, arts groups and communities.

BEMAC is a Resource Centre for culturally diverse artists, artworkers, community cultural development workers, arts and cultural organisations, communities and community organisations.

BEMAC also produces a series of professional standard, culturally diverse performance events in Brisbane, collaborating with other citywide producers such as Queensland Performing Arts Centre, Brisbane City Council, Brisbane Marketing Pty and Queensland Conservatorium of Music (Griffith University).

BEMAC recognises the diversity of cultures and communities actively contributing to Australian life and therefore supports the practice of culturally diverse art in the context of its cultural background.
